

# THE FLORIDA FORCE

June 2008 | Volume 1, Issue 1

## About FACD

### Fast Facts

- Sole distributor of YORK unitary equipment within territory
- Division of US Air Conditioning Distributors ([www.us-ac.com](http://www.us-ac.com))
- 3 Sales offices in Florida – Tampa, Orlando, Miami
- Over 12 Parts stores in Florida
- Opened for business October 2006
- Carries a variety of manufacturers' products for your HVAC needs, including Sanyo VRF systems, Delta cooling towers, Penn Barry fans and many others.
- Visit [www.fldist.com](http://www.fldist.com) for more information

## SPOTLIGHT PRODUCT OF THE MONTH

# SANYO

In 1958, SANYO entered the air conditioning industry with the introduction of the first window air conditioning unit.

Fast-forward to 2008. SANYO introduces the first solar-powered air conditioner.

With over 50 years of experience in the market, it's no wonder that SANYO's products have been at the forefront of HVAC innovation.

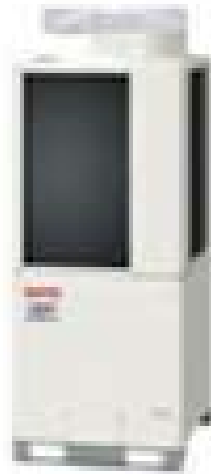

As interest in Variable Refrigerant Flow (VRF) systems continues to grow, so does SANYO. The ECO-i VRF system is available as both a 2-way system

(heating or cooling) and a 3-way heat recovery system (simultaneous heating and cooling). The system utilizes an inverter controlled compressor technology, thus providing only what is needed to each zone.

All systems contain R410a, and can be designed in a variety of configurations, including multiple indoor units on one outdoor unit.

A variety of indoor units are available, including wall mounted, ceiling cassettes and ceiling concealed. Some are able to accept outside air in order to meet ventilation requirements.

Please contact Jennifer Keith at FACD for more information, selections, catalogs, etc.

### **SANYO TOOLS & INFORMATION AVAILABLE:**

- Design Software for engineers
- Catalog
- Sensible Heat Factor (SHF) spreadsheet for various models
- VRF SEER Ratings documentation (published April 2008)

## Did You Know...???

- FACD has a Modification Shop in Orlando and is capable of providing “factory-installed” RAWAL devices, hot gas reheat, coil coatings and many more options.
- Armor Guard SS316, a coil coating, is a liquid stainless steel coating, 2 mils thick, with a standard 5 year warranty. The FACD Mod Shop can provide this coating.
- MicroMetl ([www.micrometl.net](http://www.micrometl.net)) provides Miami-Dade roof curbs, as well as combo-curbs (ERV and rooftop together on one curb, with need for only one rooftop penetration).
- MicroMetl manufactures ERVs utilizing either wheels or fixed core.
- FACD can select, provide and install RAWAL devices.
- Delta Cooling Towers ([www.deltacooling.com](http://www.deltacooling.com)) are manufactured from a corrosion-proof engineered plastic and can withstand the harsh Florida environment.
- Multiaqua ([www.multiaqua.com](http://www.multiaqua.com)) manufactures 3, 4, 5 and 10 ton air-cooled chillers and utilizes R 407c refrigerant.

## Upcoming Events

- August 20 – 22  
Factory trip scheduled to Norman, Oklahoma and Wichita, Kansas. This is a very informative trip, and is time well-spent. Please contact Jennifer Keith if interested in attending.

### AVAILABLE TOOLS, SOFTWARE, ETC...

Please visit our website at [www.fldist.com](http://www.fldist.com) for a complete list of the manufacturers we represent.

Various tools and software programs are available on our engineering website at [www.fldist-eng.com](http://www.fldist-eng.com).

Please contact FACD for catalogs, cd's, software programs or any items that may assist you with your projects..
